REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the nearest prior art (4,603,176 and 4,981,557) teaches wet strength resins comprising glyoxal-capped monomers and no additional monomers having a hydroxyl but not an aldehyde or any moiety that can form stable covalent bonds with electrophilic moieties. The prior art and general knowledge at the time of the invention would not have suggested to a person of ordinary skill in the art incorporation of the additional monomers into the resin.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
